Riverlinx Camps are a wonderful way to learn about the River Murray.

Interacting with nature on Loch Luna Cruises.

Very informative sessions from the Kingston-on-Murray Primary School students.

Enthusiastic teaching of how we conduct Water Watch.

Regent Parrots are endangered but we see them a lot in Kingston-on-Murray.

Learning about turtles, frogs, worm gardens, Tiddalick, the Smelly Garden and fish.

In the bus and off to Banrock Station to learn about macro-invertebrates.

Never a dull moment on a Riverlinx camp.

EXcellent way to connect to the River Murray environment and surrounding areas.

Riverlinx

Camps and Excursions

An educational, environmental experience hosted by the Kingston-on-Murray Primary School students, staff and school community.

Description:

Riverlinx Camps and Excursions have been operating at Kingston-on-Murray Primary School since 2008. They have stemmed from over 12 years of Environmental Education at our school. These fabulous experiences can start from half day trips to 3 full day camps.

Visiting schools are welcomed into our unique setting and connect to the serene Murray River through "Riverlinx".

Our students present workshops using "Kids Teaching Kids " methodology. We also connect with local businesses including Banrock Station, Loch Luna Cruises, Canoe Adventures, Kingston-on-Murray Caravan Park and Natural Resources South Australian Murray Darling Basin Education.

Possible workshops include-

Tiddalick/ Frogs

Learn about the Dreamtime story "Tiddalick" and our very own frog species found in our area.

Birds of Kingston-on-Murray

As we are situated so close to the river our birdlife is abundant. Learn more about our favourites.

Macro invertebrates

Under the surface of the river there is another whole world of life. Investigate what kinds of things live there.

Turtles/ Yabbies

Learn about short necked turtles, yabbies and the endangered Murray River crayfish. Take a look at the school pond where our long necked turtles live.

River Fish

Learn the differences between native and introduced fish species.

Loch Luna Cruises

Take a cruise along the river with Captain Carl. Observe the serene environment and discover native species along the way (extra cost).

Canoe Trips with Canoe Adventures

An optional extra for Yr6/7 students. When booking camps with us explore the river from a different perspective (extra cost).

These workshops are also available:

- Mozzies
- Banrock Wetlands Adventure
- Danny the Drip
- Smelly Garden/ Worm Farm
- Water Quality Testing
- Propagating Natives
- Bird Garden Tour
- "What Do You Think?" and "Hairy Nose, Itchy Butt" Story time
- Tree Health Audit
